(A-8/20/10) Sponsor: UPS Staff: Teresa Trujillo (916) 319-2063

Summary: Existing law prohibits, subject to certain exceptions, an employer from requiring an employee to work more than 5 hours per day without providing a meal period and, notwithstanding that provision, authorizes the Industrial Welfare Commission to adopt a working condition order permitting a meal period to commence after 6 hours of work if the order is consistent with the health and welfare of affected employees. This bill would exempt from these provisions employees in a construction occupation, commercial drivers, employees in the security services industry employed as security officers, and employees of electrical and gas corporations or local publicly owned electric utilities, as defined, if those employees are covered by a valid collective bargaining agreement containing specified terms, including meal period provisions. It would specify that its provisions do not affect the requirements for meal periods for certain other employees or employers. **The August 20th amendments took out the reference to the transportation industry.**
