 The Annual CBA Maintenance Seminar!**

**Taking the Byte out of Laptop Diagnostics**

**January 17-18, 2012**

What great way to start 2012 for your Maintenance Department than to get your team to the Annual CBA Maintenance Seminar for some Spring Training! This is a well-attended learning opportunity for our CBA member Technicians and the committee works hard throughout the year to make the topics relevant to what our Operator members need to keep their Techs on the cutting edge.

The 2012 Theme is "Taking the Byte out of Laptop Diagnostics". Our program will circle around Laptop diagnostics including Engine diagnostics from DDC, Cummins, Volvo; Transmission diagnostics from Allison and ZF; & Tire monitoring from Beru and Smartwave . We will have presentations from the industry experts so we encourage your Techs to bring their shop laptops for this lecture/hands on approach to learning. Every level Technician is welcome to this all-encompassing software learning event.

The 2012 "Spring Training Schedule" is January 17-18 and hosted this year by Prevost Car at their Mira Loma Service Center. A great venue for this Hands-On training opportunity.

If you haven't taken advantage of this excellent training opportunity in the past, now's the time. Those of you familiar with our program don't delay, space is limited!

*CBA is always great for a tech tune-up and up-to-date information from all manufacturers - Steve Tesconi, Royal Coach Tours.*

*For over 17 years, the evolving of technology and CBA's commitment to training has been superb. Keep it up. - Kevin Creighton - West Valley Trailways.*

**Spring Maintenance Seminar \*January 17-18, 2012**
